The Bomb Factory of Calcutta.

There have always been factories for the manufacture of cloth, oil, soap and etc. Lately the bomb factory has also sprung up. We have heard that a bomb factory has just been discovered in Calcutta and the Government have arrested a few people, but they have not been able to find hundreds yet.

The Threat to Kill Sirandra Nath.

Sirandra and Gokhale, members of Parliament, have been warned several times by the other party that they have to desert the English Government and join their party and so clean their reputation. Gokhale received threatening letters signed by five hundred persons and was therefore afraid to attend Congress at Krachi. Sirandra Nath was also threatened twice that if he would not leave the English Government he would have his head cut off.

This is a sample of the letters received by them--

If within one month you do not give ^{up the English Government &} one thousand rupees to the anarchist party you will be killed.

In this way many British houses (servants) have received threatening letters. The result of them will be seen.

Bombs thrown on the police.

Abdus Rahman a detective officer of the police of Calcutta had a bomb thrown at him which did not burst. Once before this person had a bomb thrown on his house, although he suffered the loss of his belongings, he escaped with his life. But they were unable to arrest anyone for it. The police are receiving censure from the Government now. We are getting news about bomb throwing from all sides. Perhaps this will help to drive the English from India.

A review of the Yugantar of last month.

The revolutionary paper, Yugantar, has reached the leaders of the English and Hindustani People, in which it was ^{suggested} written, to throw out the British out of India and we become free.

In Allahabad a free paper was distributed which was headed, Hindus get up and do not take rest till you have driven the English from India. All the people in Allahabad like the paper. Now is the time for all Hindustanis to get ready for the mutiny and give their life and strength and money to help it on.-----
----- Oh, incapable Hindus and Mohammedans the world seems very dark to you. The beast Kitchner who held submissive Egypt in his hand, this merciless chief of the robbers, is coming to India to deal with her in the same way. This is the same Kitchner who disinterred the corpses of the Mohammedans in Sudan and burnt them. Are you going to be his slave? President Wheeler who shamed all Egypt for their uselessness will shame India. ^{more} Butcher Kitchner is coming to strengthen the foundation of the British rule. You also should be ready to mutiny, giving your life and strength and money for the purpose. In the time of Lord Canning, 1857, there was a mutiny. Now during Kitchner's turn have another mutiny. Kitchner will then understand that the Hindus are not the same as Egyptians.

Amir Shab look to your laurels. This is not Basti. This is Delhi.
