Dr. G.S. Gill
85 Mott Crescent
New Westminster, B.C.

Dear Dr. Gill:

I'm sure you must be gratified by the excellent response of the teachers and other professional workers to the series "Understanding East Indian Cultures". We have had some very enthusiastic comments and expressions of appreciation.

I wish to thank you personally for the time and effort you gave to this program. I think there is little doubt that it will bear important results in attitudes both in schools and in the community as a whole.

A little later, perhaps, we should call our planning group together to evaluate and look ahead to future developments.

It has been a real pleasure for us to be associated with you in this program.

Yours sincerely,

(Miss) Marjorie V. Smith, Director
Programs in Human Relations
