Dear Mr. Singh:

I should like to express our pleasure and appreciation for the opportunity of working with your Society in sponsoring the series, "Understanding East Indian Cultures".

I'm sure you must be pleased, as we were, by the large number of teachers, nurses and other professional persons who signed up for the program. We have had many expressions of appreciation and enthusiastic interest in the talks and discussions. Many people have said they know others who were unable to come to this series but would very much like to have an opportunity to attend another one at some time later.

I think we can be happy in the knowledge that a good many people have now had a brief introduction to Indian culture and that this better understanding will be evident in attitudes in both the school and community.

We should particularly like to express our thanks to the Khalsa Diwan Society and particularly those who took part in preparing the Indian dinner and in conducting the tour of the Temple on our last evening. This was a most enjoyable experience and added a great deal to the whole program.

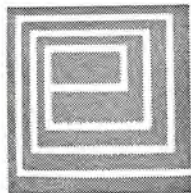

We shall look forward to future developments.

Yours sincerely,

(Miss) Marjorie V. Smith, Director  
Programs in Human Relations
