Dear Mohinder:

We had a good meeting about Session 2 and 3 of the March series recently. It looks as if those two are pretty well lined up.

We considered the possibility of having notes on the main talks mimeographed for participants (I mean the people who come), and decided it might be best to have these done in brief note form (headings and items). These could then be sent to participants ahead of time so that they would be able to follow the actual talks (which would include more material) when they come to the meetings.

If you agree with this, would it be possible for you to send me outlines for the March 3rd meeting by February 22 so that they will reach participants in time to be read before March 3rd?

I enclose for your information the notice about the "Liaison" committee meeting to be held on February 16th. Incidentally, I didn't realize someone would have to be at the Temple specially to look after us. Should we plan to have this kind of sub-committee meeting elsewhere in future? (e.g. the school)

With best wishes,

Yours sincerely,
