INTERPRETIVE SIGNAGE AND EXHIBIT
FROM CONCEPT TO INSTALLATION

Hi Kathryn,

*I hope you enjoyed the BC Museums Association Conference.
As promised I enclosed some more information about our projects.
Below a quick summary about us and what we do.*

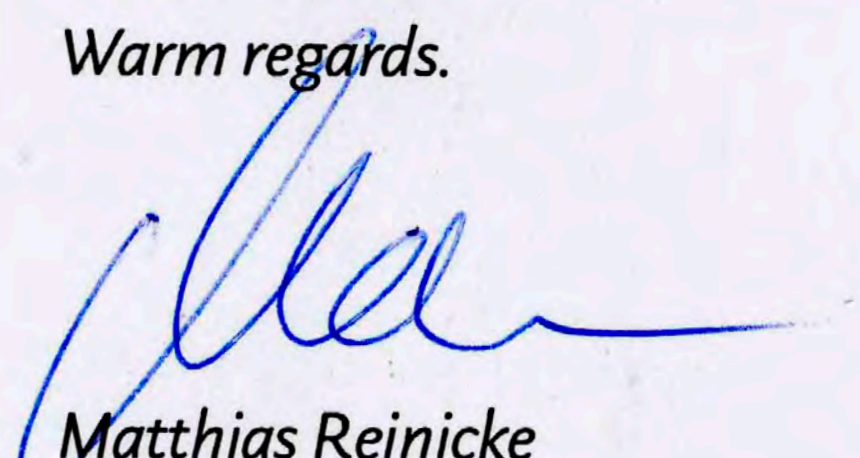

*We are a small Victoria-based company specializing in the development of interpretive /
way finding signage and exhibits for companies, historic sites, museums, parks and trails for
governments, municipalities and regional districts across the country for the last 20 years.*

We are online at <https://limesdesign.ca>.

*In our work we focus on long-term client relationships and provide meaningful and reliable
service (including remote areas). In our signage and exhibit work we offer depth and well
researched information combined with creative talent and craftsmanship.*

I would love to get together soon and perhaps discuss opportunities in more detail.

Warm regards.

Matthias Reinicke
Principal

Our expertise:

- signage strategy and stakeholder engagement,
- conceptual development,
- client consultation and project management,
- interpretive writing and display layout,
- custom illustration, photography, mapping and info graphics,
- fabrication, delivery and installation.
